UNDERGRADUATE COURSES

Dr. Katia Almeida - M/W 12:45 - 2:00 PM - 3 credits - 100-LEC(1006).
Dr. Melvyn Goldstein - T/Th 1:00 - 2:15 PM - 3 credits - 101-LEC(2233).
The nature of culture and humans as culture-bearing animals. The range of cultural phenomena including language, social organization, religion, and culture change, and the relevance of anthropology for contemporary social, economic, and ecological problems.

ANTH 103. Introduction to Human Evolution.
Dr. Lawrence Greksa - T/Th 10:00 - 11:15 AM - 3 credits - 100-LEC(2795).
Physical, cultural, and technological evolution of humans. The systematic interrelationships between humans, culture, and environment.

ANTH 107. Archaeology: An Introduction.
Dr. Jim Shaffer - T/Th 11:30 AM - 12:45 PM - 3 credits - 100-LEC(1007).
Basic archaeological concepts are discussed followed by a review of human cultural and biological evolution from the earliest times through development of state organized societies. Geographical scope is worldwide with special attention given to ecological and cultural relationships affecting human societies through time.

ANTH 215. Health, Culture, and Disease: An Introduction to Medical Anthropology.
Dr. Sara Thiam - T/Th 10:00 - 11:15 AM - 3 credits - 100-LEC(1008).
This course is an introduction to the field of medical anthropology. Medical anthropology is concerned with the cross-cultural study of culture, health, and illness. During the course of the semester, our survey will include (1) theoretical orientations and key concepts; (2) the cross-cultural diversity of health beliefs and practices (abroad and at home); and (3) contemporary issues and special populations (e.g., AIDS, homelessness, refugees, women’s health, and children at risk).

ANTH 225. Evolution.
Patricia Princehouse - W 2:15 - 4:45 PM - 3 credits - 100-LEC(3306).
Multidisciplinary study of the course and processes of organic evolution provides a broad understanding of the evolution of structural and functional diversity, the relationships among organisms and their environments, and the phylogenetic relationships among major groups of organisms. Topics include the genetic basis of micro- and macro-evolutionary change, the concept of adaptation, natural selection, population dynamics, theories of species formation, principles of phylogenetic inference, biogeography, evolutionary rates, evolutionary convergence, homology, Darwinian medicine, and conceptual and philosophic issues in evolutionary theory. Cross-list: BIOL/EEPS/HSTY/PHIL 225.
ANTH 233. Introduction to Jewish Folklore.
Dr. Judith Neulander - T/Th 1:00 - 2:15 PM - 3 credits - 100-LEC(9956).
Dr. Judith Neulander - T/Th 2:30 - 3:45 PM - 3 credits - 100-LEC(9960).
Exploration of a variety of genres, research methods and interpretations of Jewish folklore, from antiquity to the present. Emphasis on how Jewish folk traditions and culture give us access to the spirit and mentality of the many different generations of the Jewish ethnic group, illuminating its past and informing the direction of its future development. **Crosslist: RLGN 233 and JDST 233. Counts for CAS Global & Cultural Diversity Requirement.**

Dr. Andrew Rollins - Dr. Janet McGrath - TBA - 3 credits - 100-FLD(3693).
The CWRU Anthropology-Engineering Collaborative (AEC) offers this unique course applying social science and engineering skills and expertise to address global health issues in Uganda. The AEC is part of a longstanding collaboration between CWRU and Makerere University in Kampala, Uganda. Students collaborate with students at Makerere University in Kampala, Uganda and the CWRU student group, Global Health Design Collaborative (GHDC), to design and implement solutions to specific health issues in Luwero, Uganda.
Students meet weekly during the semester to learn about global health technology design and anthropology. Students work with GHDC and program faculty on specific projects; activities may include conducting needs assessment, prototype development, design validation and verification, and preparation of a project report. Current projects focus on designing a pediatric pulse oximeter; identifying means to preserve the cold chain for vaccine outreach and improving medical waste disposal.
In Uganda, students and their Makerere University counterparts travel together to Luwero district where they visit health centers to collaborate with local staff to review current design prototypes and issues. Activities include: talking to health center staff at different levels of the health care system, observing a community health outreach, and meeting with diverse stakeholders in Luwero and Kampala. Students gain hands-on experience in engineering design, social science methods, and working in transnational, interdisciplinary teams and contribute directly to ongoing efforts to address global health issues in Uganda. Students are encouraged to contribute to the projects through ongoing work with GHDC.
The course may be taken as either ENGR 350U or ANTH 300. The course fee covers travel and on-the-ground expenses. The class is open to all majors but enrollment is by application and instructors’ consent. Students who enroll in ANTH 300 for 3 credits may count this towards the School of Engineering social science requirement. **Cross-list: ENGR350U.**
ANTH 303. Interdisciplinary Solutions to Global Health Issues.
Dr. Andrew Rollins - Dr. Janet McGrath - T/Th - 8:30 - 9:45 AM - 3 credits - 100-LEC(5138).
This unique course brings together the expertise of engineers and social scientists to address global health
issues through a combination of classroom-based learning and experiential learning through team-based
design projects and field-based community assessments. Students will experience the process of engineering
design by participating in teams organized around solutions to real-world health problems in the developing
world. Methods from social sciences will be practiced and brought to bear in the process, including
assessment of global health needs, and evaluation of success of interventions. Students will study and discuss
current key issues in global health, and ethics surrounding health care, disparity, methods of intervention, and
develop skills in how to define and frame problems and communicate effectively across disciplines.
The course is organized around ongoing projects that seek to design technical solutions to global health issues,
with a focus on Uganda. The teams will also work and learn with students and faculty of Biomedical
Engineering and Social Sciences at Makerere University of Kampala (MUK), Uganda. Examples of
interactions with MUK will include discussion of common readings, peer-review, and joint planning,
implementation, and review of fieldwork.
Students enrolled in ANTH 303/ ENGR 397 are eligible to travel to Uganda to participate in project activities
over Spring Break. Travelers must be enrolled in ENGR 350U.
This course is an approved SAGES Departmental Seminar. A student in the Case School of Engineering may
use this course to meet an Engineering Core Breadth requirement, either in place of ENGL 398 and
ENGR 398, or as a Social Science course (ANTH 303 cross-list). No student may count the course to satisfy
both of these requirements. Cross-list: ENGR 397. Counts for CAS Global & Cultural Diversity
Requirment.

ANTH 306. The Anthropology of Childhood and the Family.
Dr. Sara Thiam T/Th 2:30 - 3:45 PM - 3 credits - 100-LEC(2704).
Child-rearing patterns and the family as an institution, using evidence from Western and non-Western
cultures. Human universals and cultural variation, the experience of childhood and recent changes in the

M. Gabriella Celeste - TBA - 3 credits - 100-PRA(1419).
Externships offered through CHST 398/ANTH 308 give students an opportunity to work directly with
professionals who design and implement policies that impact the lives of children and their families.
Agencies involved are active in areas such as public health, including behavioral health, education, juvenile
justice, childcare and/or child welfare. Students apply for the externships, and selected students are placed in
local public or nonprofit agencies with a policy focus. Each student develops an individualized learning plan
in consultation with the Childhood Studies Program faculty and the supervisor in the agency.
CHST 398/ANTH 308 is a 3 credit-hour course and may be taken twice for a total of 6 credit hours.
Offered as CHST 398 and ANTH 308. Prereq: CHST 301.
ANTH 310.  Introduction to Linguistic Anthropology.  
Dr. Katia Almeida - M/W/F 9:30 - 10:20 AM - 3 credits - 100-LEC(9862).  
This is an introduction to the core concepts, theories and methodologies that form the study of language from an anthropological point of view. The course provides exposure to current issues in linguistic anthropological research and reviews some of the foundational topics of research past, highlighting the contributions of linguistics to anthropology and social science. Topics to be explored include: 1) an overview of the study of language (language structure and patterns, the effects of linguistic categories on thought and behavior, meaning and linguistic relativity, cross-language comparison, and non-verbal communication); 2) doing linguistic anthropology “on the ground” (an intro to the laboratory and field techniques of linguistic anthropology); 3) the study of language as function and social action (language and social structure speech acts and events, verbal art, language and emotion); and 4) the study of language/discourse and power (language in politics, medicine, and law).

ANTH 312. Ethnography of Southeast Asia.  
Dr. Vanessa Hildebrand - M/W 8:00 - 9:15 AM - 3 credits - 100-LEC(2706)  
This course examines the people and cultures of Southeast Asia from an anthropological perspective. From a starting place of the local people we will explore important aspects of life in this region such as agriculture, religion, health, medicine, nation-building, ethnic identity, art, and technology. Additionally, we will examine and question the ideas, traditions, and scholarly modes of study that brought this geographical area together as a region. **Counts for CAS Global & Cultural Diversity Requirement.**

ANTH 316. Current Global Health Events.  
Dr. Vanessa Hildebrand - M/W 12:45 - 2:00 PM - 3 credits - 100-SEM(9866).  
This course will introduce students to an anthropological approach to understanding disease, illness, sickness and suffering in a global health context. The course will expose students to biological, socio-cultural, historical, political-economic, and epidemiological assessments of the disease and illness states. Students will be asked to bring a critical focus to the use of ethnographic, population-based, and clinical approaches to addresses global health problems. Additionally students will learn about the key organizations, institutions, and commercial enterprises that come to play in the assessment, prioritizing, and treatment of these health issues. **Counts as SAGES Departmental Seminar. Prerequisites: ANTH 102 and ANTH 215.**
ANTH 333. Roots of Ancient India: Archaeology of South Asia.
Dr. Jim Shaffer - T/Th 2:30 - 3:45 PM - 3 credits - 100-LEC(1009).
Archaeological discoveries in South Asia (modern India, Pakistan, Sri Lanka, Bangladesh, and Nepal) reveal a continuous record of human habitation from almost two million years ago until the present. Early human populations in the region encountered dramatically changing ecological conditions resulting in various cultural adaptations over this long period. Beginning with the earliest hunter-gatherer populations, archaeological data reveal a diversity of cultural changes/adaptations in South Asia resulting in the indigenous development of sedentary agricultural societies coexisting with hunters and gatherers, and with pastoral nomadic groups interacting over diverse econiches. These cultural developments resulted in the formation of the Harappan (Indus Valley) culture - a unique, ancient (2600-1300 BC) Old World civilization. Archaeological data indicate this Harappan culture provided basic fundamental cultural traits that evolved into the culturally Early Historic Indian Tradition. Special attention is given to theoretical controversies surrounding the cultural continuity issue in South Asian culture history and its significance for understanding Old World archaeology. **Recommended preparation: ANTH 102 or ANTH 107.**

ANTH 335. Illegal Drugs and Society.
Dr. Lee Hoffer - T/R 11:30 AM - 12:45 PM - 3 credits - 100-LEC(9868).
This course provides perspectives on illegal drug use informed by the social, political and economic dimensions of the issues. Framed by the history, epidemiology, and medical consequences of drug use, students will confront the complex challenges posed by addiction. Anthropological research conducted in the U.S. and cross-culturally will demonstrate, elaborate and juxtapose various clinical, public health, and law enforcement policies and perspectives. Topics examined will include: why exclusively using a bio-medical model of addiction is inadequate; how effective is the war on drugs; what prevention, intervention and treatment efforts work; and various ideological/moral perspectives on illegal drug use.

ANTH 337. Comparative Medical Systems.
Dr. Atwood Gaines - T/R 10:00 - 11:15 AM - 3 credits - 100-LEC(9896).
This course considers the world’s major medical systems. Foci include professional and folk medical systems of Asia and South Asia, North and South America, Europe and the Mediterranean, including the Christian and Islamic medical traditions. Attention is paid to medical origins and the relationship of popular to professional medicines. The examination of each medical tradition includes consideration of its psychological medicine and system of medical ethics. **Recommended preparation: ANTH 215.**

ANTH 353. Chinese Culture and Society.
Dr. Lihong Shi - M/W 12:45 - 2:00 PM - 3 credits - 100-LEC(3349).
Focuses on Chinese cultural and social institutions during the Maoist and post-Maoist eras. Topics include ideology, economics, politics, religion, family life, and popular culture. **Counts for CAS Global & Cultural Diversity Requirement. Recommended preparation: ANTH 102.**
Dr. Lihong Shi - M/W 3:20 - 4:35 PM - 3 credits - 100-LEC(2781).  
This course offers an anthropological examination of fertility behaviors around the world. In particular, it explores various historical, cultural, socioeconomic, political, and technological factors contributing to reproductive activities. After introducing the anthropological approaches to the study of fertility, the course will delve into the ways to regulate fertility in historical and contemporary times, various factors contributing to fertility change, state intervention in reproduction through voluntary and coercive family planning programs, and new reproductive technologies and ethical concerns surrounding assisted reproduction and abortion.  

Cross-list: WGST 360.

ANTH 362. Contemporary Theory in Anthropology.  
Dr. Atwood Gaines - T/Th 1:00 - 2:15 PM - 3 credits - 100-LEC(1770).  
A critical examination of anthropological thought in England, France and the United States during the second half of the twentieth century. Emphasis will be on the way authors formulate questions that motivate anthropological discourse, on the way central concepts are formulated and applied and on the controversies and debates that result. Readings are drawn from influential texts by prominent contemporary anthropologists.  
Recommended preparation: ANTH 102.

ANTH 370. Field Seminar in Paleoanthropology.  
Dr. Yohannes Ambaye - TBA - 12 credits - 100-SEM(3270).  
Paleoanthropology is the study of human physical and cultural evolution based on fossils and cultural remains from ancient geological times. These fossils and cultural remains are collected by conducting fieldwork in various parts of the world where geological phenomena have exposed fossiliferous sedimentary windows from the deep past. Hence, fieldwork is one of the major backbones of paleoanthropology. This course is designed for advanced undergraduate students who are interested in pursuing higher degrees in paleoanthropology, human paleobiology, evolutionary biology, or other related disciplines. This course introduces students to the principles and methods of paleontological fieldwork in real time. It introduces students to paleoanthropological fieldwork from locating fossiliferous areas based on aerial photo interpretations to survey methodology; from methods of systematic excavation, fossil collection and documentation in the field, to curation and preparation of fossil specimens in laboratories; from conducting scientific analyses in laboratory environments to subsequently publishing the results in peer-reviewed journals.  
Recommended preparation: ANTH 377. Prerequisites: ANTH 103 and ANTH 375.
ANTH 381. Independent Study in Laboratory Archaeology II.
Dr. Brian Redmond - TBA - 1-3 credits - 100-IND(1606).
This course provides an introduction to the basic methods and techniques of artifact curation and laboratory analysis in archaeology. Under the supervision of the instructor, each student will develop and carry out a focused project of material analysis and interpretation using the archaeology collections of the Cleveland Museum of Natural History. Each student is required to spend a minimum of two hours per week in the Archaeology laboratory for each credit hour taken. By the end of the course, the student will prepare a short report describing the results of their particular project. **Recommended preparation: ANTH 107 and permission of department, and prior permission of Department of Archaeology at the Cleveland Museum of Natural History.**

ANTH 391. Honors Tutorial.
Staff - TBA - 3 credits - Dr. Beall - 101-RSC(1642); Dr. Gaines - 102-RSC(1643); Dr. Goldstein - 103-RSC(1644); Dr. Greksa - 104-RSC(1645); Dr. Hoffer - 105-RSC(1646); Dr. Korbin - 106-RSC(1647); Dr. McGrath - 107-RSC(1648); Dr. Shaffer - 108-RSC(1649); Dr. Hildebrand - 109-RSC(2036); Dr. Ambaye - 110-RSC(2297); Dr. Shi - 111-RSC(3179); Dr. Simpson - 112-RSC(3595).
This program is open to Anthropology majors who have completed 15 hours of anthropology courses and successfully maintained a 3.25 grade point average in Anthropology and a 3.0 grade point average overall. The application process consists of arranging a research project with a faculty mentor, providing the faculty member with a transcript to verify the GPA requirements, and agreement on the project. Although an Anthropology SAGES Capstone can be a library research paper, the Honors Tutorial must be a research project. In addition, the Capstone and the Honors must be different projects.
The faculty mentor will give permission for students accepted into the Honors Program to register for ANTH 391 and ANTH 392 Honors Tutorial in the spring of their junior year and the fall of their senior year. The primary product of the Honors project is a research paper which will be made available for review by all Anthropology faculty before the end of the fall semester of the senior year. **Prerequisite: Acceptance into Honors Program.**
ANTH 392. Honors Tutorial.
Staff - TBA - 3 credits - Dr. Beall - 101-RSC(1650); Dr. Gaines - 102-RSC(1651); Dr. Goldstein - 103-RSC(1652); Dr. Greksa - 104-RSC(1653); Dr. Hoffer - 105-RSC(1654); Dr. Korbin - 106-RSC(1655); Dr. McGrath - 107-RSC(1656); Dr. Shaffer - 108-RSC(1657); Dr. Hildebrand - 109-RSC(2037); Dr. Shi - 110-RSC(3180).
This program is open to Anthropology majors who have completed 15 hours of anthropology courses and successfully maintained a 3.25 grade point average in Anthropology and a 3.0 grade point average overall. The application process consists of arranging a research project with a faculty mentor, providing the faculty member with a transcript to verify the GPA requirements, and agreement on the project. Although an Anthropology SAGES Capstone can be a library research paper, the Honors Tutorial must be a research project. In addition, the Capstone and the Honors must be different projects. The faculty mentor will give permission for students accepted into the Honors Program to register for ANTH 391 and ANTH 392 Honors Tutorial in the spring of their junior year and the fall of their senior year. The primary product of the Honors project is a research paper which will be made available for review by all Anthropology faculty before the end of the fall semester of the senior year.
Prerequisite: Acceptance into Honors Program.

ANTH 396. Undergraduate Research in Evolutionary Biology.
Dr. Cynthia Beall - TBA - 3 credits - 100-RSC(3596).
Students propose and conduct guided research on an aspect of evolutionary biology. The research will be sponsored and supervised by a member of the CASE faculty or other qualified professional. A written report must be submitted to the Evolutionary Biology Steering Committee before credit is granted. Cross-list: BIOL/EEPS/PHIL 396. Prerequisite: ANTH 225 or equivalent.

ANTH 398. Anthropology SAGES Capstone.
Staff - TBA - 3 credits - Dr. Korbin - 100-RSC(1618); Dr. Redmond - 101-RSC(1010); Dr. Simpson - 102-RSC(1011); Dr. Greksa - 103-RSC(1613); Dr. Beall - 104-RSC(1614); Dr. Gaines - 106-RSC(1615); Dr. Goldstein - 107-RSC(1616); Dr. Hoffer - 108-RSC(1617); Dr. McGrath - 109-RSC(1619); Dr. Shaffer 110-RSC(1620); Dr. Ambaye - 111-RSC(1622); Dr. Hildebrand - 112-RSC(2038); Dr. Furin - 113-RSC(2152); Dr. Shi - 114-RSC(2761); Dr. Almeida - 115-RSC(2807); Dr. Smith - 116-RSC(2823); Dr. Haas - 117-RSC(3606).
Supervised original research on a topic in anthropology, culminating in a written report and a public presentation. The research project may be in the form of an independent research project, a literature review, or some other original project with anthropological significance. The project must be approved and supervised by faculty. Group research projects are acceptable, but a plan which clearly identifies the distinct and substantial role of each participant must be approved by the supervising faculty. Counts as SAGES Senior Capstone. Prerequisite: Major in Anthropology.
ANTH 398C. Child Policy Externship and Capstone.
M. Gabriella Celeste - TBA - 3 credits - 100-LEC(1420).
Externships offered through CHST/ANTH/PSCL 398C give students an opportunity to work directly with professionals who design and implement policies that impact the lives of children and their families. Agencies involved are active in areas such as public health, including behavioral health, education, juvenile justice, childcare and/or child welfare. Students apply for the externships, and selected students are placed in local public or nonprofit agencies with a policy focus. Each student develops an individualized learning plan in consultation with the Childhood Studies Program faculty and the supervisor in the agency. Crosslist: CHST/PSCL 398C. Counts as SAGES Senior Capstone. Prerequisite: CHST 301.

ANTH 399. Independent Study.
Staff – TBA – 1-6 credits - Dr. Simpson - 100-IND(1835); Dr. Greksa - 102-IND(1012); Dr. Beall - 103-IND(1623); Dr. Gaines - 104-IND(1624); Dr. Goldstein - 105-IND(1625); Dr. Hoffer - 106-IND(1626); Dr. Korbin - 107-IND(1627); Dr. McGrath - 108-IND(1628); Dr. Shaffer - 109-IND(1629); Dr. Redmond - 110-IND(1782); Dr. Almeida - 111-IND(1786); Dr. Hildebrand - 112-IND(2039); Dr. Furin - 113-IND(2286); Dr. Shi - 114-IND(3182); Dr. Ambaye - 115-IND(3225). Students may propose topics for independent reading and research. Prerequisite: Consent of the department.
**GRADUATE COURSES**

*ANTH 406. The Anthropology of Childhood and the Family.  
Dr. Sara Thiam - T/Th 2:30 - 3:45 PM - 3 credits - 100-LEC(2705).  (See ANTH 306.)  
Recommended preparation: ANTH 102.

*ANTH 410. Introduction to Linguistic Anthropology.  
Dr. Katia Almeida - M/W/F 9:30 - 10:20 AM - 3 credits - 100-LEC(9863).  (See ANTH 310.)

*ANTH 412. Ethnography of Southeast Asia.  
Dr. Vanessa Hildebrand - M/W 8:00 AM - 9:15 AM - 3 credits - 100-LEC(2707).  (See ANTH 312.)

*ANTH 435. Illegal Drugs and Society.  
Dr. Lee Hoffer - T/R 11:30 AM - 12:45 PM - 3 credits - 100-LEC(9869).  (See ANTH 335.)

*ANTH 437. Comparative Medical Systems.  
Dr. Atwood Gaines - T/R 10:00 - 11:15 AM - 3 credits - 100-LEC(9907).  (See ANTH 337.)  
Recommended preparation: ANTH 215.

*ANTH 453. Chinese Culture and Society.  
Dr. Lihong Shi - M/W 12:45 - 2:00 PM - 3 credits - 100-LEC(3350).  (See ANTH 353.)  
Recommended preparation: ANTH 215.

Dr. Lihong Shi - M/W 3:20 - 4:35 PM - 3 credits - 100-LEC(2782).  (See ANTH 360.)  
Prerequisite: Graduate standing.

*ANTH 462. Contemporary Theory in Anthropology.  
Dr. Atwood Gaines - T/Th 1:00 - 2:15 PM - 3 credits - 100-LEC(1771).  (See ANTH 362.)  
Recommended preparation: ANTH 102.

ANTH 481. Medical Anthropology and Global Health II.  
Dr. Lawrence Greksa – F 2:15 - 4:45 PM – 3 credits - 100-LEC(1013).  
The second in a sequence of two graduate core courses in medical anthropology and global health. This course focuses on the application of medical anthropology theory and methods to the study of global health.  
Recommended preparation: ANTH 480.  Prerequisite: Graduate standing in Anthropology.
ANTH 504. Anthropological Research Design.
Dr. Lee Hoffer - Th 2:30 - 5:00 PM - 3 credits - 100-LEC(3188).
Practical and theoretical issues in the selection of questions for health and aging research in societal settings. Illustration of frameworks and designs for research. Discussion of the problems of collection, analysis, and interpretation of data along with the nonscientific influences on the research process and the use of results.
Prerequisite: Graduate standing in anthropology.

ANTH 511. Seminar in Anthropology and Global Health: Contemporary Perspectives in Anthropology and Global Health.
Dr. Janet McGrath - M 2:15 - 4:45 PM - 3 credits - 100-SEM(9923).
This course examines the current issues in global health and the emerging anthropological paradigm directed at global health issues. The objective of the course is to provide graduate students in medical anthropology an in-depth examination of global health from several perspectives. The course will feature perspectives from anthropologists as well as others working in the fields of global health.
Prerequisite: Graduate standing in Anthropology.
