FALL 2013 COURSES

COLLEGE OF
ARTS AND SCIENCES

CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF

ANTHROPOLOGY

UNDERGRADUATE COURSES

ANTH 102. Being Human: An Introduction to Social and Cultural Anthropology.

Dr. Katia Almeida - M/W 9:00 - 10:15 AM - 3 credits - 101-LEC(1002) .

Dr. Melvyn Goldstein - T/Th 1:15 - 2:30 PM - 3 credits - 100-LEC(1772).

The nature of culture and humans as culture-bearing animals. The range of cultural phenomena including language, social organization, religion, and culture change, and the relevance of anthropology for contemporary social, economic, and ecological problems.

ANTH 103. Introduction to Human Evolution.

Dr. Cynthia Beall - T/Th 10:00 - 11:15 AM - 3 credits - 100-LEC(1003).

Physical, cultural, and technological evolution of humans. The systematic interrelationships between humans, culture, and environment.

ANTH 107. Archaeology: An Introduction.

Dr. Jim Shaffer - T/Th 10:00 - 11:15 AM - 3 credits - 100-LEC(1004).

Basic archaeological concepts are discussed followed by a review of human cultural and biological evolution from the earliest times through development of state organized societies. Geographical scope is worldwide with special attention given to ecological and cultural relationships affecting human societies through time.

ANTH 215. Health, Culture, and Disease: An Introduction to Medical Anthropology.

Dr. Eileen Anderson-Fye - T/Th 11:30 AM - 12:45 PM - 3 credits - 100-LEC(1005).

This course is an introduction to the field of medical anthropology. Medical Anthropology is concerned with the cross-cultural study of culture, health, and illness. During the course of the semester, our survey will include (1) theoretical orientations and key concepts; (2) the cross-cultural diversity of health beliefs and practices (abroad and at home); and (3) contemporary issues and special populations (e.g., AIDS, homelessness, refugees, women's health, and children at risk).

FALL 2013 COURSES

COLLEGE OF
ARTS AND SCIENCES

CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF

ANTHROPOLOGY

ANTH 217. Ethnographies: Reporting Anthropological Data.

Dr. Vanessa Hildebrand - T/Th 2:45 - 4:00 PM - 3 credits - 100-LEC(9538).

Anthropologists use qualitative methods, such as participant observation and interviewing, to generate rich data with a great deal of explanatory power. The end result of the research and data collection is a research report that is, in many ways, unique: the ethnography. Through this format, anthropologists present findings from their fieldwork and make particular claims, or arguments that attempt to further our understanding of human social life, behavior, and cultural patterns. This seminar will explore this process through the close reading of contemporary ethnographic monographs. The goal of the course is to develop both critical reading skills and an understanding of how to structure a persuasive argument. This course is intended to build on skills developed in the research methods, research design, and theory courses, although they are not prerequisites.

ANTH 302. Darwinian Medicine.

Dr. Cynthia Beall - T/Th 1:15 - 2:30 PM - 3 credits - 100-LEC(9252).

Darwinian medicine deals with evolutionary aspects of modern human disease. It applies the concepts and methods of evolutionary biology to the question of why we are vulnerable to disease. Darwinian (or evolutionary) medicine proposes several general hypotheses about disease causation including disease as evolutionary legacy and design compromise, the result of a novel environment, a consequence of genetic adaptation, the result of infectious organisms' evolutionary adaptations, and disease symptoms as manifestation of disease mechanisms. It proposes that evolutionary ideas can explain, help to prevent, and perhaps help to treat some diseases. This course presents the basic logic of Darwinian medicine and evaluates hypotheses about specific diseases that illustrate each of the hypotheses about disease causation.

Recommended prerequisite: ANTH 103.

ANTH 305. Child Policy.

M. Gabriella Celeste - M/W 4:00 - 5:15 PM - 3 credits - 100-LEC(1006).

This course introduces students to issues in child policy that impacts children and families. Local, state and federal child policy will be considered. Topics will include, for example, policies related to child, poverty, education, child welfare, juvenile justice, and children's physical and mental health. Students will learn how policy is developed and how research informs policy and vice versa.

Recommended prerequisite: One social sciences course or consent of department.

Crosslist: CHST 301.

FALL 2013 COURSES

COLLEGE OF
ARTS AND SCIENCES

CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF

ANTHROPOLOGY

ANTH 308. Child Policy Externship.

M. Gabriella Celeste - TBA - 3-6 credits - 100-PRA(1797) .

An externship is offered and give students an opportunity to work directly with professionals who design and implement policies that impact the lives of children and their families. Agencies involved are active in areas such as public health, including behavioral health, education, juvenile justice, childcare and/or child welfare. Students apply for the externships, and selected students are placed in local public or nonprofit agencies with a policy focus. Each student develops an individualized learning plan in consultation with the faculty and the supervisor in the agency. It is a 3 credit-hour course and may be taken twice for a total of six credit hours.

Prerequisite: CHST 301. Crosslist: CHST 398.

ANTH 313. Anthropology of Adolescence.

Dr. Eileen Anderson-Fye - T/Th 1:15 - 2:30 PM - 3 credits - 100-LEC(9250).

This course investigates the anthropology of adolescence. What are the conditions under which adolescence has appeared around the world as a life stage? What are the roles of adolescence cross-culturally? What are the varieties of adolescent experience? Through classic and contemporary texts, the course will address these questions as well as special topics particularly important to adolescence such as globalization, mental health, and sexuality.

ANTH 319. Introduction to Statistical Analysis in the Social Sciences.

Dr. Lawrence Greksa - T/Th 10:00 - 11:15 AM - 3 credits - 100-LEC(1007).

Statistical description (central tendency, variation, correlation, etc.) and statistical evaluation (two sample comparisons, regression, analysis of variance, nonparametric statistics). Developing an understanding of statistical inference, particularly on proper usage of statistical methods.

Examples from the social sciences. **Cannot be used to meet the A&S Humanities and Social Sciences requirement. Not available for credit to students who have completed STAT 201 or PSCL 282.**

Prerequisite: Major in anthropology.

ANTH 323. AIDS: Epidemiology, Biology, and Culture.

Dr. Janet McGrath - M/W 9:00 - 10:15 AM - 3 credits - 100-LEC(9258).

This course will examine the biological and cultural impact of AIDS in different societies around the world. Topics include: the origin and evolution of the virus, the evolutionary implications of the epidemic, routes of transmission, a historical comparison of AIDS to other epidemics in human history, current worldwide prevalences of AIDS, and cultural responses to the epidemic.

Special emphasis will be placed on the long-term biological and social consequences of the epidemic. **Recommended prerequisite: ANTH 102 or ANTH 103 or ANTH 105.**

FALL 2013 COURSES

COLLEGE OF
ARTS AND SCIENCES

CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF

ANTHROPOLOGY

ANTH 331. The Most Ancient Near East.

Dr. Jim Shaffer - T/Th 2:45 - 4:00 PM - 3 credits - 100-LEC(1008).

The Near East, archaeologically, is the most intensely researched area in the world. The research, spanning 150 years, reveals a continuous record of human adaptation spanning two million years, five human species, multiple major environmental changes, and shifts in human adaptive strategies from nomadic hunting and gathering to sedentary village agriculture and the emergence of urban centers "civilization". The archaeological record of this extraordinary period beginning two million years ago until about 4000 B.C. is reviewed. Emphasis is placed on the human response to social and ecological changes. The course examines how the emergence of sedentary settlements, surplus food production, population growth, interregional trade, and social-economically stratified societies fundamentally changed the human condition.

Recommended prerequisite: ANTH 102 or ANTH 107.

ANTH 338. Maternal Health: Anthropological Perspectives on Reproductive Practices and Health Policy.

Dr. Vanessa Hildebrand - T/Th 10:00 - 11:15 AM - 3 credits - 100-LEC(2958).

The reproductive process is shared by humans as biological beings. However, the experience of pregnancy and childbirth is also dependent on the cultural, social, political, historical, and political-economic setting. This course frames issues in reproductive health by looking at the complex issues associated with maternal health and mortality world-wide. After reviewing biomedical perspectives on reproductive processes this course will focus on childbirth and pregnancy as the process and ritual by which societies welcome new members. This course will review ethnomedical concepts; discuss the interaction between local, national, and global agendas shaping reproductive practices; and conclude with anthropological critiques of reproductive health initiatives.

ANTH 339. Ethnographic and Qualitative Research Methods.

Dr. Lee Hoffer - M/W 9:00 - 10:15 AM - 3 credits - 100-SEM(12181).

This is a course on applying ethnographic research methods in the social sciences. Ethnographic research seeks to understand and describe the experiences of research participants (i.e. subjects) through becoming involved in their daily lives. Findings from ethnography are generated through systematic observation within the natural context in which behavior occurs (i.e., fieldwork). Unlike methods that emphasize detachment, distance, and objectivity, ethnography involves developing knowledge by becoming an *ad hoc* member of the group(s) one is studying. The principal techniques of ethnography, "participant-observation" and "in-depth open ended interviewing," require actively engaging the research process. This class will explore ethnographic research techniques, as well as other qualitative research methods. In addition to addressing how such methods make claims about social phenomena, this class will also explore more practical topics such as: developing questions, entering the field, establishing rapport, taking and managing field notes, coding data, and data analysis. Lectures, readings and class discussion will be complimented by assignments using techniques. **Prerequisite: ANTH 102.**

FALL 2013 COURSES

COLLEGE OF
ARTS AND SCIENCES

CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF

ANTHROPOLOGY

ANTH 349. Cultures of Latin America.

Dr. Katia Almeida - M/W 12:30 - 1:45 PM - 3 credits - 100-SEM(2583).

The aim of this course is to consider cultural diversity and social inequality in contemporary Latin America from an anthropological perspective. A variety of aspects related to ethnicity, religion, music, gender, social movements, cuisine, urban spaces, violence, and ecology are considered in addition to current economic and political issues. These topics will be analyzed in relation to Latin America's complex historical and social formation and its identity representations. The course takes under consideration various case studies in which not just local communities but also perceptions of national institutions and practices will be analyzed from pluralistic approaches (provided by either Latin American and non-Latin American researchers) that combine fieldwork, interviews and life experiences with textual and media sources. Special attention will be paid to contemporary global issues affecting Latin America.

This is an approved SAGES department seminar. Prerequisite: ANTH 102.

ANTH 353. Chinese Culture and Society.

Dr. Lihong Shi - T/Th 11:30 AM - 12:45 PM - 3 credits - 100-LEC(9259) .

Focuses on Chinese cultural and social institutions during the Maoist and post-Maoist eras. Topics include ideology, economics, politics, religion, family life, and popular culture.

Recommended prerequisite: ANTH 102.

ANTH 359. Introduction to International Health.

Dr. Janet McGrath - M/W 12:30 - 1:45 PM - 3 credits - 100-LEC(2585).

Critical health problems and needs in developing countries. Prevalence of infectious disease, malnutrition, chronic disease, injury control. Examines strategies for improvement of health in less-developed countries.

Recommended prerequisite: ANTH 102.

ANTH 365. Gender and Sex Differences: Cross-Cultural Perspectives.

Dr. Atwood Gaines - M/W 12:30 - 1:45 PM - 3 credits - 100-LEC(2872).

Gender roles and sex differences throughout the life cycle considered from a cross-cultural perspective. Major approaches to explaining sex roles discussed in light of information from both Western and non-Western cultures. **Prerequisite: ANTH 102 or consent of department. Crosslist: WGST 365.**

ANTH 367. Topics in Evolutionary Biology.

Topic: Principles of Evolutionary Medicine: Issues in Evolutionary Medicine.

Patricia Princehouse - W 4:00 - 6:30 PM - 3 credits - 100-LEC(12716).

The focus for this course on a special topic of interest in evolutionary biology will vary from one offering to the next. Examples of possible topics include theories of speciation, the evolution of language, the evolution of sex, evolution and biodiversity, and molecular evolution.

Prerequisite: ANTH 225 or equivalent. Crosslist: ANAT/EEPS/PHIL 367 and BIOL 368.

FALL 2013 COURSES

COLLEGE OF
ARTS AND SCIENCES

CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF

ANTHROPOLOGY

ANTH 372. Anthropological Approaches to Religion.

Dr. Atwood Gaines - M/W 9:00 - 10:15 AM - 3 credits - 100-LEC(9254).

The development of, and current approaches to, comparative religion from an anthropological perspective. Topics include witchcraft, ritual, myth, healing, religious language and symbolism, religion and gender, religious experience, the nature of the sacred, religion and social change, altered states of consciousness, and evil. Using material from a wide range of world cultures, critical assessment is made of conventional distinctions such as those between rational/irrational, natural/supernatural, magic/religion, and primitive/civilized. **Recommended preparation: ANTH 102. Crosslist: RLGN 372.**

ANTH 375. Human Evolution: The Fossil Evidence.

Dr. Yohannes Ambaye - M/W 10:30 - 11:45 AM - 3 credits - 100-LEC(1555).

This course will survey the biological and behavioral changes that occurred in the hominid lineage during the past five million years. In addition to a thorough review of the fossil evidence for human evolution, students will develop the theoretical framework in evolutionary biology.

Prerequisite: ANTH 103, Recommended prerequisites: ANTH 377 and BIOL 225.

Crosslist: ANAT 375. Classes will be held at the Cleveland Museum of Natural History.

ANTH 377. Human Osteology.

Dr. Scott Simpson - T/Th 2:45 - 4:30 PM - 4 credits - 100-LEC(1009).

This course for upper division undergraduates and graduate students will review the following topics: human skeletal development and identification; and forensic identification (skeletal aging, sex identification and population affiliation). **Crosslist: ANAT 377.**

ANTH 380. Independent Study in Laboratory Archaeology I.

Dr. Brian Redmond - TBA - 1-3 credits - 100-IND(2333).

This course provides an introduction to the basic methods and techniques of artifact curation and laboratory analysis in archaeology. Under the supervision of the department, each student will develop and carry out a focused project of material analysis and interpretation using the archaeology collections of the Cleveland Museum of Natural History. Each student is required to spend a minimum of two hours per week in the Archaeology Laboratory at the Cleveland Museum of Natural History for each credit hour taken. By the end of the course, the students will prepare a short report describing the results of their particular project.

Recommended prerequisite: ANTH 107, permission of department, and prior permission of the Archaeology Department of the Cleveland Museum of Natural History.

FALL 2013 COURSES

ARTS AND SCIENCES
CASE WESTERN RESERVE
UNIVERSITY

DEPARTMENT OF
ANTHROPOLOGY

ANTH 382. Anthropological and Ecological Perspectives on Preserving and Restoring the Natural World.

Dr. Richard Smith - T/Th 11:30 AM - 12:45 PM - 100-SEM(2880).

Now that the environmentally deleterious effects of modern Western culture on the natural world have reached major proportions, it has become crucial to explore innovative solutions to this dilemma. In this course novel perspectives derived from the intersection of anthropology and ecology are discussed. The primary perspective focused upon is the understanding that human culture and the natural world in which it is imbedded are essentially communicative, or semiotic processes, which thrive upon diverse interaction and feedback. Preserving and restoring the Natural World thus shifts from protecting individual species and particular cultural practices to enhancing the communicative matrix of life and multiple cultural views of the environment. Through this understanding, students will learn to apply a more elegant, effective, and aesthetically pleasing perspective to the challenging environmental issues facing our contemporary world. An in-depth examination of the North American Prairie, along with a comparison of influences on the landscape by indigenous and modern Western culture will serve as the particular region of focus.

This course is an approved SAGES department seminar.

ANTH 391. Honors Tutorial.

Staff - TBA - 3 credits - Dr. Anderson-Fye - 100-RSC(2157); Dr. Beall - 101-RSC(2158); Dr. Gaines - 102-RSC(2159); Dr. Goldstein - 103-RSC(2160); Dr. Greksa - 104-RSC(2161); Dr. Hildebrand - 105-RSC(2162); Dr. Hoffer - 106-RSC(2163); Dr. Korbin - 107-RSC(2164); Dr. McGrath - 108-RSC(2165); Dr. Shaffer - 109-RSC(2166); Dr. Ambaye - 110-RSC(2984).

Prerequisite: Acceptance into Honors Program.

ANTH 392. Honors Tutorial).

Staff - TBA - 3 credits - Dr. Anderson-Fye - 100-RSC(2167); Dr. Beall - 101-RSC(2168); Dr. Gaines - 102-RSC(2169); Dr. Goldstein - 103-RSC(2170); Dr. Greksa - 104-RSC(2171); Dr. Hildebrand - 105-RSC(2172); Dr. Hoffer - 106-RSC(2173); Dr. Korbin - 107-RSC(2174); Dr. McGrath - 108-RSC(2175); Dr. Shaffer - 109-RSC(2176); Dr. Ambaye - 110-RSC(3067).

Prerequisite: Acceptance into Honors Program.

ANTH 396. Undergraduate Research in Evolutionary Biology.

Dr. Cynthia Beall - TBA - 3 credits - 100-RSC(2904).

Students propose and conduct guided research on an aspect of evolutionary biology. The research will be sponsored and supervised by a member of the CASE faculty or other qualified professional. A written report must be submitted to the Evolutionary Biology Steering Committee before credit is granted.

Prerequisite: ANTH/BIOL/EEPS/PHIL 225 and consent of the department.

Crosslist: BIOL/EEPS/PHIL 396.

ANTH 398. Anthropology SAGES Capstone.

Staff - TBA - 3 credits - Dr. Beall - 100-RSC(2189); Dr. Greksa - 101-RSC(2192); Dr. Melvyn Goldstein - 102-RSC(1776); Dr. Shaffer - 103-RSC(1777); Dr. Anderson-Fye - 104-RSC(1781); Dr. Gaines - 105-RSC(1780); Dr. Korbin - 106-RSC(1779); Dr. McGrath - 107-RSC(1778); Dr. Redmond - 108-RSC(1860); Dr. Simpson - 109-RSC(1864); Dr. Hoffer - 110-RSC(1900); Dr. Hildebrand - 111-RSC(2177); Dr. Ambaye - 112-RSC(2178); Dr. Furin - 113-RSC(2682); M. Gabriella Celeste - 114-RSC(3121).

Supervised original research on a topic in anthropology, culminating in a written report and a public presentation. The research project may be in the form of an independent research project, a literature review, or some other original project with anthropological significance. The project must be approved and supervised by faculty. Group research projects are acceptable, but a plan which clearly identifies the distinct and substantial role of each participant must be approved by the supervising faculty.

Approved SAGES capstone.

Prerequisite: Major in Anthropology and consent of supervising faculty member.

ANTH 398C. Child Policy Externship and Capstone.

M. Gabriella Celeste - TBA - 3 credits - 100-LEC(1799).

Externships offered give students an opportunity to work directly with professionals who design and implement policies that impact the lives of children and their families. Agencies involved are active in areas such as public health, including behavioral health, education, juvenile justice, childcare and/or child welfare. Students apply for the externships, and selected students are placed in local public or nonprofit agencies with a policy focus. Each student develops an individualized learning plan in consultation with the Childhood Studies Program faculty and the supervisor in the agency. This course is a 3 credit-hour course and may be taken twice for a total of 6 credit hours.
