
Minor in Astronomy: The requirements for the minor in astronomy are as follows:

| | | |
|--------------------------|--|----|
| One of the following: | | 4 |
| PHYS 115 | Introductory Physics I | |
| PHYS 121 | General Physics I - Mechanics | |
| PHYS 123 | Physics and Frontiers I - Mechanics | |
| One of the following: | | 4 |
| PHYS 116 | Introductory Physics II | |
| PHYS 122 | General Physics II - Electricity and Magnetism | |
| PHYS 124 | Physics and Frontiers II - Electricity and Magnetism | |
| Both Classes: | | |
| ASTR 221 | Stars and Planets | 3 |
| ASTR 222 | Galaxies and Cosmology | 3 |
| One of the following: | | 3 |
| ASTR 306 | Astronomical Techniques | |
| ASTR 311 | Stellar Physics | |
| ASTR 323 | The Local Universe | |
| ASTR 328 | Cosmology and the Structure of the Universe | |
| ASTR 333 | Dark Matter | |
| Total Units | | 17 |
