

#46 *Letterhead Department of Physics CSAS*
Miller to Shankland

Aug. 20. 1934

Dear Mr. Shankland

Another "Crumb of Comfort:" "The Concept of Time" by R. A. Sampson, Director of the Royal Observatory, Edinburgh. in "Monthly Notices of the Royal Astronomical Society" vol 94, No. 7. May 1934, pages 603-630. His philosophical are very good, to me.

If this keeps on, we will get enough "crumbs" to make a cake.

With best wishes.

Dayton C. Miller

P.S. I have been working on "History of Sound", which Macmillan will publish, getting the illustrations ready. We hope to leave tomorrow or next day, to Canada, down the St. Lawrence, to Saguenay, and home by way of Boston and New York.

D.C.M.
