Dear Professor Miller:—  
I was much grieved to  
hear of Morley's death - of which  
your letter brought the first  
intimation. I had known of  
his being in rather poor health, but  
had no idea the matter was at  
all serious.

I'm especially sorry I haven't  
had an opportunity of seeing him—  
for several years.

Sincerely yours  
A. A. Michelson
