

ST JOHN'S COLLEGE,
CAMBRIDGE.

June 19. 1916

Dear Mr. Madson

I have waited a long
time before acknowledging your
valued gift of your book on
musical sounds. I had some
surprise in finding that you
had got your horn so well
under control: and the way you
do it is an instructing study
with application to education -

well as sound - the peaks are like
the lines in a spectrum.

Now you can visualize them
many complex things will be
revealed / things as obvious

Very truly yours

Haemon
