Larmor to Miller re music book; accompanied by penciled transcription by Miller.

June 19, 1926

St John's College.
Cambridge.

Dear Prof. Miller

I have waited a long time before acknowledging your valued gift of your book on musical sounds. I had some surprise in finding that you had got your horn so well under control: and the way you do it is an interesting study with application to radiation as well as sound – the peaks are like the lines in a spectrum.

Now you can visualize them many complex things will be revealed I trust as obvious.

Very truly yours

J. Larmor
