

telling about it in section A.
I am sending it to the Philo-
sophical Magazine for publication,
which I hope I have your
permission to do. It will
certainly be read with great
interest. I have been
today reading with much
interest your paper on the
vapor pressure of mercury
in the June number.

24th Sept 1904

NETHERHALL.
LARGS.
AYRSHIRE.

Dear Marley

I was much interested
in the letter from you and
your colleague, Dayton C
Miller, of August 5th.
It came to me during the
meeting of the British
Association at Cambridge,
and I wish I could have
had an opportunity of

Lady Kelvin joins us in
kind regards, and I remain.

Yours truly
Kelvin
