Rayleigh to Miller re: receipt of phonodeik traces. This brief note is accompanied by a penciled transcription by Miller.

June 27/09
Terling Place
Witham, Essex

My dear Sir

I am much obliged for the photographic rolls w^h are beautifully executed and must contain valuable data if one could only interpret them better. I was very glad to make the acquaintance of Prof. Morley when he was over here with Michelson. The courage of both these men in attempting difficult problems is much to be admired.

I am

yours truly
Rayleigh
