

Dear viewer of our new web app flashcards,

We have now upgraded and updated the web app to match and improve upon our latest hardcopy flashcards (which we are no longer able to send out). We list below the card numbers that have been edited (one just this month, July 2015: QM13 answer), and you can go online to find all the improved cards.

Someday we've got to make better figures (especially to replace the hand-drawn ones!).

Please contact us (rwb@case.edu) if you find any additional errors or ambiguities in any of the flashcards. We'll be most thankful!

Best luck, Doc Brown, July 2015

P.S. I am most grateful (in alphabetical order) to the following wonderful people who recently pointed out many of the above corrections or clarifications (this list does not include folks who contributed to earlier improvements for the earlier versions)

Arya Afshari
 Maria Barsukova
 William Byron
 Tal Einav
 Cathleen Fry
 Steven Harris
 Allison Reinsvold
 Fabio Sanches
