

Department of Biology
Ph.D. Candidacy Research Proposal
Abstract Form

The purpose of this form is to standardize abstracts for topics of a research proposal to be submitted to the Biology Graduate Affairs Committee for approval. The abstract must contain a single-sentence description of the research problem and an overview of the research approach that will be taken to address the problem. Include no more than three key references.

Candidate Name: _____ Advisor: _____

Current research topic: _____

Abstract (250 word limit)

References (no more than 3)
